MMR_0242 Edwin Hall former President PSR

I have thrown my name into the mix for your consideration for the office of PSR President. My motives for volunteering are relatively simple. I have spent the last 40 years of my life reaping the many benefits of the NMRA and now I have an opportunity to use my experience to try and give back to the NMRA some of the benefits I received.

I feel my background in the NMRA has provided me with the stepping-stones needed to be properly prepared for the office of President. These include two terms as Division Contest Chair, two terms as Division Superintendent and two terms as Division Director. In addition, I have served as Regional Convention Chairman for two conventions.

If elected, it is my intent to continue to provide the continuity and leadership of my predecessors. I believe in the mission and goals of the NMRA.

I believe our hobby of model railroading is what it is today because of yesterday and that it is the members of today that will ensure that it will be there for tomorrow.

I also believe the NMRA "Member" is the most important part of the NMRA structure. Changes are a fact of life and it takes energy to keep pace with it. I feel we must always strive to find ways to strengthen our hobby while keeping it "fun" for the members. I offer the members of the PSR my services with energy and promise to accept the challenges of this office with responsibility.
